FOR IMMEDIATE RELEASE

GLTC Announces Proposed Temporary Suspension of Sunday Service

LYNCHBURG, VA – January 12, 2026

The Greater Lynchburg Transit Company (GLTC) today announced a proposal to temporarily suspend Sunday service across all transit modes, including fixed-route buses, paratransit, and GLTC Flex services. Monday through Saturday service will continue without changes at this time.

GLTC is currently facing a sustained shortage of qualified bus operators. Despite robust recruitment efforts, comprehensive paid training programs, and Commercial Driver's License (CDL) support, current staffing levels are insufficient to maintain reliable Sunday operations while ensuring service quality throughout the rest of the week. "Our primary commitment is to provide reliable transportation to our community. Restoring Sunday service when we have the sufficient number of operators remains a top priority". - Josh Moore, General Manager

The GLTC Board of Directors has voted to initiate the federally mandated public participation process required for service changes. This vote does not implement the cancellation of service—it begins a formal period of public notice, hearings, and comment collection that will inform the Board's final decision.

GLTC is committed to transparency and encourages all riders, stakeholders, and community members to participate in this process.

Submit written comments for inclusion in the official record by February 11th, 2026 to:

- Email: feedback@gltconline.com
- Mail: GLTC, 800 Kemper Street, Lynchburg, VA 24501
